

Virtual Classroom

New technologies – new training options

Nowadays, trainings are the best tool for perfect service. Unfortunately, workshop staff is not able to participate in the trainings due to pressure of time. The virtual classroom gives workshop staff the possibility to still participate in live “trainings” without having to leave their workplace.

Contents

- The subject of the trainings are current technology and product topics as well as tips and information about the PIERBURG systems and components.
- The participants have the opportunity to exchange their experiences concerning troubleshooting and repair.

Requirements

- Fast Internet access
- Required software installed on the PC (the Installation instructions are sent in advance)
- Sound card (in the PC)
- Headset (headphones with microphone) or loudspeakers and microphone

Target group

Proprietors, foremen and mechanics from PIERBURG service partners and independent workshops.

Venue

In front of your PC at home or in the workshop
